Workshop title: Inclusive Early Childhood Development: Global Arenas for Social Pediatrics
Content and objective of the workshop (ca. 250 words):
Converging global processes of scientific, economic, and human rights progress point to inclusive early childhood development as a priority for social pediatrics. Opportunities for collaboration, innovation and leadership abound in health, disability, and nurturing care initiatives. Twin-tracking of universal with disability specific policies, programs and services advances goals of equity and quality. A new Bonn Declaration brings vital partners together on behalf of the world's children.
All Authors, Institutions: Donald Wertlieb, Professor emeritus, Tufts University, USA; President, Partnership for Early Childhood Development & Disability Rights (PECDDR); Coordinator, Early Childhood Development Task Force (ECDtf) for the Global Partnership on Children with Disabilities (GPcwd).
