Dear Colleagues, dear Friends,

The 35th Annual Congress of the International Society for Social Pediatrics and Child Health (ISSOP) takes place at a time of unprecedented upheaval for children globally with millions displaced due to violent conflict and natural disasters. This is why we have chosen the theme “Children on the move: Rights, Health and Well-being”. The scientific program will review current knowledge, clinical challenges and policy options with a view to formulating a strategy for child health professionals based on the rights of all children. We look forward to welcoming you to the beautiful, historic city of Budapest.
